Accurate determination of the bank's risk-based capital ratio is increasingly important to bank management. Call Report preparers often find preparation of Schedule RC-R difficult, primarily because the instructions are hard to understand and hard to find. This session will provide minimum risk weights for all assets and off-balance-sheet items, instructions for RC-R items, and cover factors that affect risk-based capital ratios.

Continuing Education: Attendance verification for CE credits provided upon request.

HIGHLIGHTS

- Ratios
- Tier 1 and Tier 2 capital
- Average assets
- Risk weights for assets
- Risk weights for off-balance sheet items

WHO SHOULD ATTEND?

This session will benefit all Call Report preparers, reviewers, and auditors.

MEET THE PRESENTER

**Judith Jenkins,
Bank Training Services**
