CBA Political Action Committee

Important to You

You have the opportunity to make your voice heard with the CBA of Kansas *Century Club*.

The banking industry has seen dramatic changes over the past decade, resulting in increasing concentration of financial power.

The new environment presents both challenges and opportunities. While there are many financial entities working to tip the scales in favor of mega banks over community banks, local banks like yours can pool resources to keep legislation in balance. Bigger banks seek out new laws and regulations that give preference to their own interests, but as a community bank you know the importance of local communities having the support of a local bank.

CBA of Kansas encourages you to develop relationships with public policymakers. It is important to stay informed about current issues in the banking industry, and offer your unique perspective and insight to your legislators. In addition, please consider contributing to the Community Bankers Political Action Committee, an important and active voice representing your interests in the political process.

Political Action Committee

There is no greater threat to your bank than legislators unfriendly to your business philosophy. With your help community banks can work together to elect legislators that understand the important role of community banks in Kansas.

The Community Bankers Political Action Committee (CBPAC) gives community bankers like you a voice in state politics by contributing to political candidates that uphold your values. CBPAC is the only state PAC that exclusively represents the interests of CBA of Kansas members.

Your participation in CBPAC is critical for the survival of community banks in Kansas. As a member of CBA of Kansas, you build relationships with your fellow community bankers, but you also gain new allies in the political arena that are shaping the future of the financial services industry.

When you are a part of *Century Club*, your professional interests are represented in the legislative process, ensuring that the financial services industry maintains a fair, competitive atmosphere. Your contribution to CBPAC demonstrates your commitment to the future of local banks in the state of Kansas.

Contribution Levels

Platinum	\$500 – 1000
Gold	\$300 – 499
Silver	\$100 – 299

Please consider making a contribution to CBPAC to protect the future of community banking in Kansas. When you or your bank contributes at least \$100, you'll be included as part of the *Century Club*. Banks with 100 percent of employees and/or officers and directors contributing to CBPAC receive the distinction of being a *Century Club 100% Bank*.

There are benefits to membership in the CBPAC *Century Club*. Both *Century Club* and *Century Club 100% Bank* members receive special recognition in the CBA of Kansas magazine, as well as other publications. In addition, *Century Club 100% Bank* members receive a recognition plaque for display in their bank or office.

Guidelines You Need To Know

Individuals, state-chartered banks and holding companies of national banks may contribute to more than one state PAC in any year. A designated consent form allowing solicitation of bank employees for a federal PAC does not prevent your bank from contributing to CBPAC, a state PAC.
